Dear Traders and Declaring Agents

REVISED DECLARATION PROCEDURE FOR TRADENET PERMITS INVOLVING HAZARDOUS SUBSTANCES AND RADIOACTIVE MATERIALS

The National Environment Agency (NEA) has revised the declaration procedure for TradeNet permits for the import and export of hazardous substances (CA08) and radioactive materials (CA15) to enhance safety and security.

2 From **5 November 2026**, traders must declare the storage location and consignee details in accordance with the requirements below. Permit applications that do not meet these declaration requirements will be rejected.

Requirement	Import Permit Application	Export Permit Application
Storage location	Declare **"STORAGELOCATION"** in the **"Place of Receipt Name/Address"** field for new applications.	Declare **"STORAGELOCATION"** in the **"Place of Release Name/Address"** field for new applications.
	Place of Receipt Name/Address field in the approved permit **cannot be amended**.	**Place of Release Name/Address** field in the approved permit **cannot be amended**.
Consignee Country/Region and Address	For import of goods for re-export, declare the Consignee's **overseas** Country/Region Code and Address (i.e. Consignee Country/Region Code **must not be "SG"**) for new applications. For all other imports, leave the **Consignee Country/Region Code and Address** fields **blank** for new applications.	Declare the Consignee's **overseas** Country/Region Code and Address for new applications.
	The **Consignee Country/Region Code** and **Address** fields in the approved permits **cannot be amended** to "SG" and a local address respectively.	

3 If you require any clarification, please submit your query via the Online Feedback Form at https://www.nea.gov.sg/corporate-functions/feedback or via the myENV mobile application. For the full list of affected HS codes, please refer to the following links:

- List of HS codes for hazardous substances (www.nea.gov.sg > Our Services > Pollution Control > Chemical Safety > Hazardous Substances > The list of HS Codes and Product Codes assigned to NEA's controlled hazardous substances are sorted by alphabetical (chemical names) order)
- List of HS codes for radioactive materials (www.nea.gov.sg > Our Services > Radiation Safety > Information on Licence to Import or Export Irradiating Apparatus and Radioactive Materials > List of HS Codes for Controlled Irradiating Apparatus and Radioactive Materials)
