

Say YES to Waste Less Campaign Partners' Initiatives

Partner	Initiative
25 Degrees	25 Degrees offers a 20 per cent discount on takeaway orders when guests bring their own containers.
7-Eleven	Since Jan 2023, 7-Eleven has been charging 10 cents for plastic bags to encourage customers to use eco-friendly reusable bags. They have also been selling reusable bags in stores to give customers an alternative to single-use plastic bags. Additionally, 7-Eleven encourages customers to bring their own reusable tumblers by offering a 10-cent discount to help minimise the impact to the environment for a more sustainable future. 7-Eleven has also been offering eco-disposable utensils as a sustainable alternative to single-use cutlery.
Accor Hotels & Resorts	<p>Accor Hotels & Resorts, across its global network of 5000 hotels and 27 properties in Singapore, is the first major hotel group to have successfully eliminated the majority of single-use disposable plastic items used by guests and replaced them with sustainable alternatives. These include over 50 different types of products from in-room wet and dry amenities to take-away containers and cutlery in restaurants.</p> <p>As Singapore's largest hotel operator, Accor has also implemented a slew of major sustainable initiatives in its properties to reduce the use of plastic bottles, plastic packaging, and food waste. These initiatives include the installation of filtered water dispensers in-room to fulfil cold, hot, and sparkling water needs and the creation of in-house aquaponics.</p>
Amara Singapore	Amara Singapore has committed to waste management by implementing initiatives which support and encourage the reduction of waste. The property uses an eco-digester which converts food wastage into compost and water. The restaurants also welcome guests to bring their own container for takeaways. In addition, associates are strong advocates for less waste with their meal practices in the staff canteen.
Andaz Singapore	<p>Andaz Singapore cares greatly for the environment and is committed to preserving the precious natural resources of the world. Some of its sustainability initiatives include certified energy-saving building design features, sustainable procurement of food, plastic-free amenities at meetings and events, and recycling of slippers, coffee capsules, and bar soaps in the guestrooms.</p> <p>At Andaz Singapore's rooftop bar, Mr Stork, remaining cut fresh fruit are dehydrated and turned into garnishes for other cocktails. For a "Fallen Paradise" cocktail, leftover pineapple skins and squeezed limes are lacto-fermented with spices and salt respectively and turned into syrups.</p> <p>After pineapples, coconuts, and passionfruit are juiced for clarified cocktails, the remaining fruit pulp is mixed with sugar and flour, baked, and turned into tuiles which are used as a garnish.</p>
Asia Pacific Breweries Singapore	Asia Pacific Breweries Singapore's Brew a Better World sustainability strategy raises the bar with new commitments to creating positive environmental and social impact and maximising circularity. This is demonstrated through their zero-waste approach which uses an extensive reverse logistics system where beer glass bottles and kegs are collected from consumers and partner outlets for reuse. This has allowed them to reuse up to 27 million glass bottles. They also collaborate with

	<p>third parties to upcycle spent grains from the beer brewing process for use as animal feed, which diverted more than 20,000 tonnes of waste from the landfill.</p>
Association of Trade & Commerce	<p>The Association of Trade & Commerce (ATC) advocates, connects, and develops local enterprises from all industries and trade sectors and assists them in building capabilities to transform and internationalise.</p> <p>To encourage enterprises in reducing waste, ATC has adopted electronic certificates and gone paperless.</p> <p>They have also adopted digital solutions such as BizPortal — a business portal that is designed for enterprises to access resources. Documents, invoices, payments and related contents can be accessed and shared through a single platform which reduces the need for print materials.</p>
Astons	<p>In 2019, Astons implemented changes to their business operations to minimise the usage of plastic materials. Plastic straws were phased out and paper straws are only provided upon request. For takeaway orders, they have stopped giving out plastic cutleries unless requested. In parts of their business operations, they serve food in reusable crockery instead of using disposables.</p> <p>In 2023, Astons is still committed to constantly review its current practices and exploring new ways to achieve the Zero Waste target and stay ever mindful of the environmental challenges faced.</p>
Back to Basic Living	<p>Back2Basic Cafe aligns closely with sustainability values. It practises a circular economy and has introduced many zero-waste initiatives. It composes food waste from vegan food preparation, and fruit waste is converted into eco-enzymes used for cleaning and watering plants.</p> <p>Back2Basic Cafe incentivises customers to bring their own reusable containers for takeaways to reduce the use of disposables. The Cafe also regularly shares sustainable lifestyle tips on social media to educate the public on more eco-friendly alternatives to everyday products.</p> <p>They have also joined susGain and WWF Singapore to promote their incentive rebate programme for sustainable food and products. Back2Basic Cafe has also actively participated in WWF Singapore's fundraising events aimed at environmental conservation.</p>
Bakery Cuisine	<p>Bakery Cuisine encourages customers to use their own reusable bags instead of single-use plastic bags. Disposable straws and takeaway utensils are provided only upon request.</p>
Bamboo Straw Girl Pte Ltd	<p>Bamboo Straw Girl (BSG) is a homegrown Singapore social enterprise working directly with makers in the region to produce zero-waste lifestyle goods. Growing from their very first product, the simple bamboo straw, BSG now stocks more than fifty unique products that help people to reduce waste in their daily lives. With the motto 'Refuse, Reduce, Rethink', BSG aims to encourage the movement against single-use plastics and fight against wasteful consumption.</p>

	<p>Besides their retail efforts, BSG also holds school assembly talks, corporate training programmes, and hands-on DIY workshops, and facilitates the 2030 SDG card game in Singapore.</p>
Bartley Traders	<p>Bartley Traders enables clients to build a sustainability ecosystem through a Consult-Procure-Train methodology which helps corporations understand their natural capital, tailors solutions to enhance resource circularity, and measure performance against Environmental, Social and Governance (ESG) goals. Over 100 reusable solutions are offered through their eCommerce platform under the brand “The Green Integrator” which delivers worldwide.</p> <p>They are proud to be the first in Singapore to introduce a compact residential food digester for homes which can convert food waste into fertilizer within 4 hours.</p> <p>They have issued over 1000 samples of products to promote awareness and enable change.</p>
Bata Singapore	<p>Bata Singapore is committed to encouraging customers to reuse and recycle their shopping bags. From April 2023, Bata Singapore retail stores will begin switching to environmentally friendly shopping bags. These bags come in 2 different sizes — medium and large. Shopping bags will be chargeable at \$0.10 and \$0.20 respectively.</p>
Bee Cheng Hiang	<p>Bee Cheng Hiang encourages customers to bring their own reusable bags. They also use their widespread influence during the festive seasons to reach out to a broader audience. For instance, Bee Cheng Hiang has introduced a Go Green campaign during the mooncake festival, offering customers a discount when they say no to gift boxes and paper bags. This year, they have also successfully digitised their membership program, bringing convenience to their customers while reducing waste.</p>
Books Kinokuniya	<p>To reduce plastic waste, Books Kinokuniya has been imposing a charge of 30 cents per transaction for the use of plastic bags at their retail stores in Singapore since 1 January 2021. Over the last two decades, heavy duty book bags and reusable tote bags have been produced and sold, or given away in a bid to encourage recycling and #BeatPlasticPollution.</p> <p>Most recently, in the spirit of <i>kaizen</i>, the Japanese philosophy of continuous improvement, its Kinokuniya Privilege Card membership programme that started in the year 2004 has gone digital.</p>
Bricks World	<p>LEGO® Certified Stores (Bricks World) is committed to fostering sustainability. After collaborating with the World Wildlife Fund, it was one of the early adopters in Singapore to charge for bag usage, encouraging shoppers to bring their own bags and significantly reducing single-use shopping bags in stores.</p> <p>In addition, Bricks World has been phasing out plastic bags in favour of paper bags made from responsible sources, while logistics and operations reuse 100 per cent of pre-used carton boxes as packaging for all their deliveries.</p>

	<p>Bricks World supports various charities and recently donated 200kg of LEGO® bricks to a charitable cause via a community campaign.</p>
<p>Busy Bees Asia</p>	<p>Busy Bees Asia believes in the importance of environmental social responsibility and is committed to be carbon neutral by 2030.</p> <p>This includes installing solar panels to power their centres and integrating sustainability concepts within their curriculum to educate children. Some of these activities include learning journeys on the “ABCs” of solar energy, sustainable gardening; and also integrating waste sorting and recycling as part of the curriculum to form positive waste management habits across their preschools.</p> <p>As part of the waste less campaign at Odyssey, they will educate their team and children to waste less energy resources, through initiatives such as installing “green labels” around the campuses. At Odyssey Orchard and Pat’s Schoolhouse Aroozoo, they installed solar panels to harness solar power to power their campuses. Their newest development, Odyssey Dempsey is dubbed as the “Forest Preschool”. This new campus aims to have sustainability as its core pedagogy, with developments planned such as solar-powered energy, rainwater collection facilities, as well as a greenhouse for “Garden-to-Table” initiatives.</p>
<p>Café&Meal MUJI</p>	<p>Since 2019, Café&Meal MUJI has stopped providing plastic straws and takeaway plastic cutlery by default. Biodegradable straws and takeaway utensils are provided only upon request.</p>
<p>Café Milligram</p>	<p>Café Milligram creates a contemporary eco-friendly space for coffee and food enthusiasts, helping them to make healthier lifestyle and environmentally friendly choices. The company welcomes customers to bring their own reusable containers and cups for take-away orders and has partnered delivery vendors to further encourage opting for reusables. Café Milligram also raises awareness on the importance of reducing disposables through in-store reminders and the sharing of messages on its online platforms.</p>
<p>CapitaLand</p>	<p>CapitaLand places sustainability at the core of what it does and is committed to contributing to the environmental and social well-being of its communities. CapitaLand Investment aims to achieve Net Zero by 2050 and a 25 per cent recycling rate by 2030. In 2021, its Singapore properties collected 13.7 tonnes of e-waste. Green fit-out guides encourage new tenants to practise sustainability including waste minimisation.</p> <p>The 3rd iteration of CapitaLand Sustainability X Challenge, a global search for innovations that make buildings more climate-resilient and resource-efficient, such as waste management and circularity, has launched with up to S\$1 million to cover the piloting costs of up to 10 selected innovations at CapitaLand properties.</p> <p>Almost 100 CapitaLand properties will encourage sustainable lifestyles and waste reduction through digital screens and the CapitaStar@Work</p>

	<p>mobile app. Shoppers can redeem rewards on the CapitaStar app for every 10 drink containers recycled at the 16 reverse vending machines located at its properties.</p>
<p>Central Singapore Community Development Council (CDC)</p>	<p>The Central Singapore Community Development Council (CDC) supports the 'Say YES to Waste Less' campaign.</p> <p>At Central Singapore, the "Better Environment @ Central' initiative is introduced to educate and help households to adopt sustainable practices towards a Zero-Waste lifestyle through key environmental values – 6Rs: Refuse, Reduce, Reuse, Repair, Repurpose, and Recycle. The 'Better Environment @ Central' initiative is one of the 52 programmes at the Central Singapore CDC to help our residents live The Better Life.</p> <p>The Central Singapore CDC hopes to encourage residents to embark on a 'Better Environment' journey by:</p> <ul style="list-style-type: none"> • Reducing food wastage, such as through requesting for smaller food portions, buying what is required, and planning meals in advance; • Reducing the use of disposables, such as through using reusable cutleries, as well as bringing their own containers when buying takeaways; • Organising a series of Sustainability Workshops for residents and community partners to encourage them to adopt sustainable practices towards a Zero-Waste lifestyle. <p>The Central Singapore CDC will encourage stakeholders to amplify the 'Say YES to Waste Less' campaign through online publicity throughout this period.</p>
<p>Circular Asia</p>	<p>Circular Asia believes that moving towards a circular economy will not only positively impact their businesses and improve the economy, but also ensure environmental sustainability for future generations. However, much effort is needed to make the transition. Their programmes are developed to teach the circular economy to all in the region and to understand the specific struggles that Asian economies and societies face in transiting to the circular economy.</p> <p>In support of SYTWL, Circular Asia will be running a series of social media posts focusing on the importance of reducing single-use disposables and food waste in everyday life, and how it ties to achieving a circular economy in Singapore.</p>
<p>City Developments Limited (CDL)</p>	<p>In partnership with Seven Clean Seas (SCS) in January 2022, City Developments Limited (CDL) became the first real estate company to receive a plastic neutral certification for one of its commercial properties, 11 Tampines Concourse. Asset managers were also trained on the types of single-use plastic waste and their downstream environmental impact.</p> <p>At CDL's City Square Mall (CSM), more retail tenants are encouraging shoppers to reduce single-use plastic bags with either paper bags or their</p>

	<p>own eco-friendly tote bags. F&B tenants are also stepping up with rebates for customers who bring their own coffee mug.</p> <p>To address food waste, CDL's Le Grove Residences is the first serviced apartment in Singapore to provide eco-digesters that convert solid food material into fertiliser.</p>
Clear Channel Singapore	<p>Clear Channel Singapore has encouraged employees to bring their containers for takeaways, use reusable cutleries when enjoying their meals, and refuse single-use plastic bags to reduce environmental impact. The reuse of paper and rubber bands is also encouraged to cut down on waste.</p>
Cloop	<p>Cloop is a circular fashion initiative focused on reducing fashion overconsumption and waste by helping consumers close the textile loop with solutions for unwanted textiles and sustainable shopping alternatives such as Fashion Swap!, Open Wardrobe, and Curated Bag. Apparel is circulated locally through a Cloop cycle – Collect, Curate, Circulate, and Community. Together with an ISO-accredited textile recycling partner, Cloop hopes to double the textile/leather recycling rate by placing textile recycling bins across Singapore. Residents can recycle their clothes, bags, shoes, accessories, and household items such as toys, pillows, and linens in any clean and dry condition (new/old) at a Cloop bin near them. More information can be found at bit.ly/mapcloopbins.</p>
Cloversoft	<p>Cloversoft provides Zero Waste options for its toilet rolls and facial tissues. With coreless toilet rolls packed in paper cartons, 1000-sheet facial tissue refill packs, and Floor Cleaner Soluble Sheets, Cloversoft makes it easier for customers to go zero-waste. It also ensures that all its regular packaging is 100 per cent recyclable and safe for the earth.</p>
Cold Storage/CS Fresh	<p>Cold Storage, CS Fresh and Jasons have stopped giving out straws since May 2019 and have encouraged customers to bring their own reusable containers and bags. At various touchpoints across the store where plastic bags are given out to bag fresh products, they have installed signages to encourage customers to use fewer plastic bags.</p> <p>Early last year, CS Fresh and Cold Storage also launched craft beer Born & Bread that's made with leftover bread. Created in collaboration with food technology company CRUST Group, surplus bread from CS Fresh will be shared with CRUST Group to be brewed into a light and refreshing craft beer that is available at select Cold Storage and CS Fresh locations.</p> <p>CS Fresh worked with ecoSpirits to put their innovative SmartKiosk™ at selected stores, allowing consumers to sustainably reuse branded spirits bottles in a secure, digital shopping experience.</p> <p>Cold Storage and CS Fresh worked with Alba E-waste to install e-waste collection bins from July 2021 at the stores to encourage customers to recycle and be rewarded.</p>
ComfortDelGro	<p>ComfortDelGro has strived to reduce its waste-to-landfill numbers over the years. Large-scale operational waste like batteries and tyres are either recycled or reused, with decommissioned vehicles sent to scrap</p>

	<p>yards to recover precious materials. It also supports and participates in various national waste strategies and initiatives.</p> <p>For instance, ComfortDelGro participated in the Say YES to Waste Less campaign in October 2021, where it engaged its staff on reducing single-use disposables, and how they could participate in the campaign activities.</p> <p>Apart from deploying recycling bins for paper, plastic, and cans in its premises, it also educates employees on various methods to reduce waste as well as on other sustainability topics via regular e-newsletters and webinars. To reduce paper waste in its bus depots, technicians have been issued tablets which have a Bus Mobile Maintenance System installed. This replaces paper checklists and records. It also regularly monitors and measures its waste disposal.</p>
Conservation International Singapore	<p>Conservation International Singapore, a non-profit, works to empower the community to care for nature responsibly and sustainably through environmental education and partnerships.</p> <p>Conservation International Singapore will be organising a walk at Sungei Buloh Wetland Reserve for the public to appreciate the flora and fauna of our coastal ecosystems while encouraging them to rethink, refuse, and reduce consumption and pollution to conserve our coastal ecosystems.</p>
Converge Spot	<p>Converge Spot embraces the 3R philosophy. It reduces energy usage through Smart IOT in its co-working spaces. The air conditioning temperature defaults to 25 degrees Celsius and all unnecessary electrical points are switched off when not in use. It reuses the packaging in delivery packages and glass containers for storing pantry items and recycles beverage cans and product containers. Converge Spot also discourages single-use plastic packaging when packing items for its customers, and instead encourages customers to use the mugs provided or bring their own reusable containers when enjoying their food and beverages at Converge Spots.</p>
Copthorne King's Hotel Singapore	<p>Sustainability is gaining momentum as hotels and resorts strive to reduce their carbon footprint. Copthorne King's Hotel, Singapore, was awarded the BCA Green Award, Platinum in 2021 — a national program that recognises developers, building owners and individuals who have made outstanding achievements in environmental sustainability.</p> <p>Copthorne King's Hotel is part of the Say YES to Waste Less Campaign with ongoing sustainability initiatives such as efforts to reduce food waste. The hotel will be rewarding guests and customers with food and beverage vouchers or \$2 off their total food bill if they bring their own takeaway containers when dining at the hotel restaurants, Princess Terrace and Tien Court.</p>
Cotton On Singapore	<p>Cotton On is committed to creating a longer life cycle for everything they make and use. They have eliminated plastic shopping bags from their global network and are making the switch from plastic water bottles to recycled aluminium bottles, which are infinitely recyclable. Cotton On is committed to going carbon neutral by 2030, giving materials new life, diverting waste from landfill, and closing the loop – for Good.</p>

	<p>To learn more, click here to read Cotton On's 2022 impact report — The Good Report.</p>
COURTS	<p>To reduce the use of plastic bags, COURTS Singapore offers foam hand strips for customers to paste on the sides of small cardboard boxes to create handles.</p> <p>To make carrying larger items easier, COURTS Singapore offers reusable bags and raffia strings to tie around packaging. This is to encourage customers to use fewer plastic bags.</p> <p>As an additional measure, the brand's F&B service partners in COURTS MEGASTORE, the brand's flagship store located in Tampines, have pledged to go 'strawless', providing straws only upon request.</p>
Crate & Barrel	<p>At Crate and Barrel, customers are encouraged to bring their own shopping bags to help reduce waste. When deemed necessary, purchased goods will be packed into Crate and Barrel's iconic black and white shopping bags made from 100 per cent post-consumer recyclable paper certified by the Forest Stewardship Council. As part of its commitment to the environment, the company regularly explores the latest in green packaging and encourages its vendors to do the same.</p>
Crystal Jade	<p>Crystal Jade has taken shark's fin dishes off menus since July 2018 and offers premium alternatives in its place. They have also switched to using sustainable palm oil for the group since 2018. In addition, they have reduced the use of plastic wares for takeaway packaging since the end of 2018 and stopped using plastic straws at all outlets since April 2019. They have encouraged diners to bring their own bags since 2022 by imposing a nominal charge for plastic bags.</p> <p>Crystal Jade also introduced plant-based dishes at selected concepts in 2022. The group is actively looking at measures and actions to work towards more sustainable and responsible gastronomy without compromising on the quality of food served at their restaurants.</p>
DBS	<p>In 2020, as a bank that is committed to building a sustainable and climate resilient future, DBS embarked on a regional Towards Zero Food Waste initiative with a strong focus on sparking collective action through galvanising multiple stakeholders.</p> <p>DBS was the first bank to join the Say YES to Waste Less campaign in 2020. Since then, it has been rallying Singaporeans to help reduce food waste in the final operating hours of F&B outlets with dining discounts through 'Last Hour Deals' on ecommerce platforms such as foodpanda, WhyQ and Just Dabao, a social enterprise. In late 2022, DBS expanded the 'Last Hour Deals' to include F&B retailers and supermarkets at Great World City and Malls of Frasers Property.</p> <p>To inspire and empower youths to develop impactful zero food waste solutions and nurture environmental leadership, DBS launched the inaugural nationwide DBS Foundation X NEA Hungry for Change Challenge. Five teams with the most innovative and impactful solutions will receive up to SGD125,000 to bring their ideas to life.</p>

	<p>Read more about DBS' zero food waste efforts at https://www.dbs.com/livemore/zero-food-waste.html</p>
Decathlon	<p>Aiming to become a zero-waste company by 2026, Decathlon Singapore focuses on reducing waste generated to protect nature and preserve biodiversity.</p> <p>To date, the sporting goods company has already removed all usage of single-use plastic bags in stores and replaced them with 100 per cent eco-friendly blue bags. It has removed all plastic from e-commerce operations and recycled 15 tons of used shoes into running tracks and 25 tons of logistic packaging.</p> <p>This year, they intend to reach zero defective product waste and start the transition to a circular economy. Find out more about Decathlon's sustainability commitment here: https://www.decathlon.sg/sustainability</p>
Deliveroo	<p>Deliveroo is committed to bringing customers amazing food in the most sustainable way possible. Sustainability initiatives include a partnership with BioPak to offer sustainable packaging options to all restaurants. They also signed the WWF's PACT Plastic ACTION (PACT) pledge to encourage consumer behaviour change and restaurant partners to improve their packaging materials. In 2018, they made plastic cutlery an opt-in.</p> <p>In September 2021, Deliveroo for Business (DfB), the corporate arm of Deliveroo, partnered with Zero Waste SG to encourage offices to reduce waste generated at offices. The partnership enabled Zero Waste SG to do an office waste audit, conduct employee surveys to determine waste habits, and provide customised tips for zero waste solutions.</p> <p>In August 2022, they partnered with social enterprise TreeDots to empower restaurants to minimise their carbon footprint by ordering surplus or imperfect food items, that would otherwise be thrown away, at lower prices.</p>
Divert for 2nd Life	<p>Divert for 2nd Life (D2L) is a zero-waste organisation that saves and redistributes all types of surplus food from any entity. D2L creates hyperlocal ecosystems of food circularity, empowering people and the private and public sectors to be part of the zero-waste movement.</p> <p>In support of SYTWL, D2L will be disseminating 'Say YES to Waste Less' messages via their marketing platforms to encourage the public to say YES to reducing food waste. The public can also collect surplus food from GoodHood.sg. If you are interested in volunteering or partnering with them during or beyond the campaign, you may approach them at linktr.ee/d2l.sg.</p>
Dole Sunshine Company	<p>As one of the largest tropical fruit manufacturers, Dole Sunshine Company has focused on reducing fruit loss on their farms. By 2025, fruit waste sent to landfill will be zero, reduced from 55,828 metric tons in 2019.</p> <p>They are repurposing their fruit waste into new products such as fruit powders, dietary fibres and more through Dole Specialty Ingredients.</p>

	<p>Beyond that, they are using their fruit waste to produce energy from biogas and for composting. In 2021, they repurposed and prevented 288,132 metric tons of fruit from going into landfill.</p>
Don Don Donki	<p>Working alongside their customer community towards reducing waste and conservation of resources, DON DON DONKI has introduced an eco-initiative where shoppers can drop off excess or unwanted ice packs in the eco boxes located within the stores as part of their commitment to care for the environment for a more sustainable future.</p>
Eu Yan Sang	<p>Customers are encouraged to bring their own reusable shopping bags when they shop at Eu Yan Sang stores or purchase its reusable eco-bags cotton bag to bag their purchases.</p> <p>For its “BYOB on Monday” initiative in partnership with WWF, customers are charged 10 cents for paper bag carriers. 100 per cent of the proceeds are donated to WWF to support environmental conservancy efforts.</p> <p>As part of its 143rd Anniversary campaign, Eu Yan Sang Singapore launched a series of Peter Rabbit™ Mealtime Collectibles featuring a reusable bamboo fibre lunchbox, thermal food jar, thermal flask and multi cooker to encourage consumers to adopt the use of reusable food and drink vessels to reduce use of single-use plastic/Styrofoam food containers and cups.</p> <p>As part of this initiative, Eu Yan Sang launched a social community #NoToPlasticWithEU Instagram Challenge to challenge the public to use its Peter Rabbit bamboo fibre lunchbox in place of single-use food containers and share their posts/stories on their Instagram accounts with the hashtag #NoToPlasticWithEu to stand a chance to win prizes. They hope to inspire more to embark upon an eco-sustainable lifestyle.</p>
Evergreen Stationery	<p>Since 1 November 2022, Evergreen Stationery is an active partner collecting original HP ink cartridges and toners for recycling. Shoppers can visit any stores to drop off used original HP ink & toners. Its close partnership with a like-minded paper manufacturer also sees its participation in a project to plant a million trees.</p> <p>From 1 January 2023, Evergreen Stationery will charge 10 cents for standard size carrier bags. It continues to actively discourage the use of disposable carrier bags through email and social media channels and by prominently displaying signages in its outlets. Evergreen Stationery also designed its own reusable bag to better accommodate larger volume stationery purchases.</p>

Facebook Singapore	<p>Meta Singapore will be supporting the Say YES to Waste Less campaign by encouraging its people to embark on a zero-waste journey by reducing food wastage and the use of single-use cutlery and disposables.</p> <p>The company globally has also reduced waste in their offices by eliminating drinks in plastic containers and using eco-friendly bathroom amenities among other initiatives.</p> <p>Meta will also be showing its support for the campaign through the amplification of NEA’s message via their internal messaging portal and by placing posters around office communal spaces.</p>
Fairmont Singapore & Swissôtel The Stamford	<p>Whether by utilising AI technology to reduce food waste or growing produce at their onsite industry-first Aquaponics Farm, sustainability and innovation have always been a big part of Fairmont Singapore and Swissôtel The Stamford’s philosophy and business operations.</p> <p>A property-wide initiative called ‘Clean for Green’ promotes a more sustainable way of life through offering a \$20 credit per day towards food and beverage, spa, or laundry services to hotel guests who opt out of the housekeeping service.</p> <p>The reception to ‘Clean for Green’ has been positive and Accor has also rolled it out at other properties.</p>
FairPrice Group	<p>With the goal to enable Healthier Lives and a Healthier Planet, FairPrice is committed to promoting a circular and low carbon economy.</p> <p>FairPrice has championed the “No Plastic Bag” initiative to reduce single use plastic bags since 2019. From a pilot project involving 7 stores, the initiative has expanded to include 11 FairPrice and all 167 Cheers and FairPrice Xpress stores from 1 January 2022.</p> <p>As a food retailer, FairPrice advocates for food waste reduction through the FairPrice-CSR Food Waste Reduction Framework. Apart from supporting public education efforts and donating unsold groceries to the community, FairPrice offers blemished produce at marked down prices, and diverts food waste from landfill by converting them to animal feed and treating them with food waste digesters.</p>
Food Citizen	<p>At Food Citizen, food provides a lens through which everyone can discover how humans can take better care of Earth, fellow humans, and themselves. Food Citizen partners regenerative practitioners to bring local experience that is grounded by global knowledge to schools, offices, and communities. Urban compost and nature-based gardening have been a mainstay of their work.</p> <p>In support of SYTWL, Food Citizen will be conducting workshops and talks to bring awareness on food that is wasted, maintaining zero waste kitchens, fermenting food, and composting unavoidable food scraps. A key focus is to raise participants’ awareness on what can be done about waste around them.</p>

	<p>Through compost workshops, participants learn that about composting wood from street trees, fallen leaves, food scraps, and garden trimmings, and that returning living compost to soil is essential to sustaining healthy environments.</p> <p>Participants of food waste talks would learn why food waste happens, what they can do about it, and take-home original recipes.</p> <p>Participants of fermented food sessions can look forward to learning the benefits of beneficial gut microbes, and how they can make their own fermented food using readily available vegetables and locally harvested native edibles.</p> <p>Through the different offerings, Food Citizen's practitioners will share how everyone can reduce their waste through meaningful choices and actions.</p>
Food from the Heart	<p>Food from the Heart (FFTH) is an independent, IPC-status food charity that feeds the needy in Singapore. Their food distribution programmes are run with sustainability in mind. In support of Say YES to Waste Less, FFTH will be giving out reusable shopping bags at their Community Shops in four locations. The Community Shop is FFTH's giving better milestone initiative for their beneficiaries, functioning as a charity mini-mart which operates on a shop-for-free concept. Beneficiaries are empowered to pick 12 non-perishable food items and two fresh produce items from the Shop each month. This initiative also results in less food waste as the beneficiaries are likely to finish all the items they choose.</p>
foodpanda Singapore	<p>foodpanda believes in leveraging technology to build a greener platform that enables sustainable actions to flourish. Features such as its default opt-out cutlery toggle have caused 60% of its total orders across Singapore to be delivered without disposables.</p> <p>foodpanda also recently launched Green Label, a first-of-its-kind programme by a food delivery company in Singapore that identifies the most sustainable brands on the platform through a restaurant certification scheme. Under this initiative, restaurants that have registered their interest will be assessed based on their sustainable practices - including their efforts in reducing food and packaging waste - and given the Green Label certification should they meet the requirements.</p>
For The Love of Laundry	<p>Since 2010, For the Love of Laundry has been offering an eco-conscious and sustainable dry cleaning and laundry service. Their passion for the environment and care for their customer's clothes see them utilising toxin-free laundry technology and biodegradable plastic carriers in their operations. They also offer customers the option of reusable garment bags and encourage them to return their plastic hangers by donating five cents to charity for every hanger returned.</p>
Foreword Coffee Roasters	<p>Foreword Coffee Roasters is a social enterprise that supports environmental sustainability by encouraging the BYO movement, reducing the use of disposables and repurposing waste at cafes.</p> <p>Foreword Coffee will be offering the following promotions from 18 Feb – 31 Mar 2023: - Bring Your Own Cup promotion, where customers can enjoy a 10 per</p>

	<p>cent off all handcrafted drinks when they bring their own reusable cups.</p> <p>- Free First Story Cafe reusable cup when customers spend a minimum of \$25 in a single receipt at First Story. The promotion is applicable for dine-in and takeaways.</p>
Four Points by Sheraton Singapore	<p>Four Points by Sheraton Singapore, Riverview has eliminated all disposable plastic straws and stirrers from its F&B outlets — The Best Brew and Four Points Eatery — and has replaced them with sustainable alternatives such as ocean-safe buckwheat straws and compostable wooded stirrers.</p> <p>In an initiative to reduce paper and printing, Four Points integrated its F&B outlets and In-Room Dining Menus into QR codes which guests can scan to browse and order with ease.</p> <p>Customers can enjoy a 10 per cent discount on takeaway orders at Four Points Eatery when they bring their own container. Terms and conditions apply.</p> <p>Keeping climate action in mind, Four Points participated in the Ministry of Sustainability and the Environment's Climate Action Week 2022 with its F&B outlet, The Best Brew's Grounds for Your Garden initiative. It offered its used coffee grounds to all guests and those interested, to BYOC (Bring Your Own Container) and grab some to fertilise their gardens.</p>
Fun Toast	<p>With Fun Toast, customers can save money while reducing their carbon footprint. Fun Toast offers a 10 per cent discount when customers use a Fun Toast tumbler or stick one of the "Friends of Fun Toast" stickers on their current tumbler.</p> <p>Currently, they have 44 Fun Toast outlets in Singapore. More information is available on their website: https://www.funtoast.com.sg/outlets/fun-toast/</p>
Gardenia	<p>Besides upcycling unsold bread into animal feed, Gardenia Singapore collaborated with a local food tech start up, Crust Group, to upcycle returned bread into higher-value products by converting unsold bread into sustainable beverages for the F&B retailers.</p> <p>As part of its sustainability effort to reduce plastic used in packaging, Gardenia Singapore has reduced the thickness and length for some of its product packaging and organises consumer outreach programs to promote awareness of reusing and recycling used plastic packaging.</p> <p>In the retail front, Gardenia Singapore actively encourages consumers to reduce the use of plastic bags by distributing reusable shopping bags and sandwich boxes through retail promotions.</p>
Giant	<p>Giant stopped giving out straws since 2019 and have encouraged customers to bring their own reusable containers and bags. At Giant Tampines Hypermarket, an ecoDigester is installed to convert organic waste into water for washing. Giant worked with Alba E-waste to install e-waste collection bins from July 2021 at the stores to encourage customers to recycle and be rewarded.</p>
GrabFood	<p>Since 2019, Grab has taken active steps to reduce single-use plastics on the platform. This includes introducing the cutlery toggle for all GrabFood</p>

	<p>orders, which is set to 'opt-out' by default and requires customers who need cutlery to actively include it in their order. Since its inception, the majority of GrabFood orders have been placed with the 'no cutlery' option and this number continues to see a steady increase. Grab is currently also partnering with Muuse to provide consumers with the option of using reusable containers instead. In 2020, Grab signed the WWF-Singapore's PACT (Plastic ACTION) Food Delivery Service pledge with the vision of 'No Plastic in Nature by 2030'. Under this initiative, Grab is committed to introducing more ways to help their consumers and partners go green and communicating their sustainability progress to stakeholders.</p>
Greendot	<p>Since April 2020, Greendot has been offering a 20 cents discount to all customers who bring their own containers for main dishes. Greendot has been providing verbal and visual nudges to customers to reduce single-use cutlery and plastic bags. Since September 2020, Greendot stopped providing plastic straws and will provide them only if requested.</p>
GreenSG Collab	<p>GreenSG COLLAB is an IPC-status charity with a vision of creating communities of learning, joint initiatives and advocacy for biodiversity and a sustainable future.</p> <p>In support of SYTWL, GreenSG COLLAB will be disseminating Say YES to Waste Less messages via their marketing platforms to encourage the public to say YES to reducing single-use disposables and food waste. They will be creating educational content on their social media to raise awareness about waste, showcase the efforts undertaken by other SYTWL partners, as well as provide tips on how one can be less wasteful.</p>
Greensquare Pte Ltd	<p>Greensquare provides free textile recycling services to households and organisations in Singapore and promotes awareness of the 3Rs (Reduce, Reuse, Recycle) through educational efforts.</p> <p>In support of SYTWL, Greensquare will be disseminating Say YES to Waste Less messages via their marketing platforms to encourage the public to say YES to reducing textile waste.</p>
Green Sproutz Singapore	<p>Green Sproutz Singapore is a social enterprise that focuses on environmental sustainability education by synergising with partners of all levels. They prioritise environmental sustainability and educational outreach programmes for schools, corporates, and community partners through field trips, workshops and talks.</p> <p>Green Sproutz Singapore will be including the SYTWL campaign logo, messaging and video on their website and incorporate SYTWL messaging in their outreach programmes, such as sustainability workshops, talks and events conducted for schools, corporates and community partners island-wide.</p>
Guardian	<p>Since 22 April 2022 (Earth Day), Guardian implemented a plastic bag charge to encourage customers to go eco-friendly. Plastic bags are chargeable at 10 cents per transaction and all proceeds go towards supporting environmental and community causes. Guardian also launched the Guardian Care reusable bags sold at 50 cents each as green alternatives to plastic bags.</p>

Guzman Y Gomez	Guzman y Gomez phased out the use of straws for all customer drink orders to reduce the environmental impact of single use plastic. Furthermore, they work with the delivery platforms (Deliveroo, Grab & foodpanda) to encourage customers to opt out of disposable cutlery from their orders. Customers are encouraged to bring their own reusable bags, containers and utensils for take-away. They engaged an expert analytics firm to deeply assess the food preparation wastage within the outlets and worked closely with the chefs to reduce food waste through streamlined supply chain upgrades, improved operating procedures, and improved attention to detail around food preparation.
H&M	<p>H&M Singapore encourages customers to make use of reusable shopping bags by charging 10 cents for its paper bags since July 2019. All paper bag sales proceeds are donated to Singapore Fashion Council to support the Zero Waste in Fashion Initiative. As part of H&M's circular packaging strategy, H&M aims to eliminate all unnecessary packaging and replace single use packaging with alternatives where possible.</p> <p>Aside from the paper bag charge, H&M replaced the outer plastic packaging of its online orders with FSC-certified paper and H&M joined PACT by WWF since 2019 to further eliminate the use of plastic. By 2025, H&M Group will reduce packaging across its value chain by 25 per cent (baseline 2018) and all its packaging will be either reusable, recyclable or compostable. By 2030, 100 per cent of H&M's packaging will be made from recycled or other sustainably sourced materials.</p>
Hans Im Glück	From June 2019, Hans Im Glück has been providing metal straws to patrons. The company also only gives out plastic cutlery upon request by customers for takeaways. Since 2018, Hans Im Gluck has partnered with an NEA-licensed used cooking oil collector company to collect and convert used cooking oil into non-edible commodities such as biodiesel.
Harvey Norman	Harvey Norman has put out social content related to the reduction of waste such as sharing zero food waste recipes and ways to recycle. On an ad-hoc basis, it has also encouraged customers to recycle their e-waste at its stores by rewarding them with a \$10 voucher for every item recycled. It provides a trade-in service for laptops. Harvey Norman works with NEA's authorised recycling partner to take back used fridges, TVs, washers, dryers, and air conditioners upon delivery of customers' new purchase. It is also looking at providing reusable bags in place of plastic bags moving forward.
Herbal Pharm	<p>Herbal Pharm have been actively reducing the usage of disposables and working towards being zero-waste. They replaced 100 per cent of their single-use plastic product bottles and incentivise customers to bring back recyclable supplement bottles/cans of any brand for recycling.</p> <p>Herbal Pharm have replaced single-use plastic carriers with reusable woven bags. The company also provide \$1 off the total bill to incentivise customers to bring their own bag when shopping at their retail stores.</p>
HEYTEA	HEYTEA has been making steady efforts to bring waste to a minimum. With accurate forecasting, they have been able to bring food waste down to a minimum. More importantly, they are creating less waste to the environment by using environmentally friendly packaging using paper and PLA materials; both of which can be recycled.

	To encourage more participation from consumers to contribute positively to the environment, HEYTEA has been encouraging customers to bring their own cups or tumblers to enjoy drinks from their stores by offering a 50-cent discount.
Holiday Inn Singapore Atrium	Designed with sustainability in mind and with the aid of the IHG Green Engage system, the hotel actively tracks day-to-day energy, water, carbon emission, as well as waste management to reduce carbon footprint and water use. The system has devised more than 200 Green Solutions, such as smart design, intelligent lighting, and biodegradable cleaning products. Holiday Inn Singapore Atrium also actively participates in energy-saving and waste reduction campaigns, such as NEA's Say YES to Waste Less movement.
Hotel Fort Canning	Hotel Fort Canning has been actively encouraging its guests to bring their own reusable bags, containers, and bottles for takeaway orders to reduce the use of disposables. Plastic cutlery is only given upon request. The hotel also customised a limited-edition tote bag given as part of its staycation package to promote the use of reusable bags. In tackling food waste, its staff are trained to inform diners of portion sizes and the option of downsizing their staples like rice or noodles. Leftover ingredients in the kitchen are turned into tasty meals for its employees.
Hotel G	From 2019, Hotel G has made the change to boxed water replacing plastic bottles, introduced makeup rooms and change linens only when necessary. Carton boxes from deliveries are recycled to minimise waste while guest room amenities and housekeeping items are purchased in bulk from suppliers with eco-friendly packaging. Only suppliers that offer eco-friendly packaging were chosen. Single use bathroom amenities are changed to large pump bottles, reducing purchase of single-use amenities.
Huggs Coffee	<p>Since September 2020, Huggs has embarked on a sustainability journey. Huggs is phasing out the use of plastic bags, using only reusable non-polypropylene bags for takeaways. To reduce the use of disposables, Huggs provides a 30-cent discount for any "Bring your own" cups or tumblers.</p> <p>In 2022, Huggs co-created merchandise made from sustainably sourced materials with Mandai Wildlife Reserves to help consumers make more environmentally friendly choices. Previously, Huggs has also worked with local eco partners to create used coffee grounds into bath body scrubs or plant fertilisers.</p>
HYSSSES	<p>HYSSSES derives its products from nature and embraces the spirit of giving back to nature. With infinite growth but finite resources taking over the planet, the company believes in doing its part to help Mother Earth. Recycling and reusing are always part of its consideration towards its role in a greener economy. HYSSSES hopes to measure its carbon footprint and reduce it by 10% annually, aiming for sustainable development without degrading the environment.</p> <p>It is also working to improve environmental sustainability. At the HYSSSES Heritage refill station, visitors can restock their desired products. HYSSSES offers regular-used products such as body wash, shampoo, massage oil, hand wash and even hand sanitisers. With these efforts,</p>

	<p>HYSES hopes to encourage people to consume less to have a more sustainable world for the planet, and for future generations.</p>
IKEA	<p>IKEA globally has eliminated single-use plastics from its home furnishing range and replaced disposable packaging in its food operations. It aims to produce 100 per cent of its products from recycled and renewable materials by 2030, up from 78 per cent today. Here in Singapore, IKEA stores were the first in the country to completely remove the use of disposable plastic shopping bags in 2013, and today, its reusable FRAKTA and BRATTBY blue bags remain icons of the brand. Through its Waste Watcher software, IKEA Restaurants in Singapore weigh and track all food waste in kitchens and have successfully reduced waste by more than 50 per cent (from a 2018 baseline). At IKEA Singapore, more than 70 per cent of the waste generated by the business is recycled and it enables customers to do the same at home. IKEA Singapore's thread of sustainability communication online and in stores provides tips on how to reduce waste, save energy and water, and sort and recycle at home. Through a wide range of reusable products, IKEA makes it easy and affordable for customers to make the shift from throw-away plastics by opting for stainless steel straws, bamboo chopsticks, stoneware travel mugs, reusable food containers, and more.</p>
ION Orchard	<p>From now to 31 December 2023, the first 2,500 ION Rewards Members monthly can earn Green Points when they shop sustainably at ION Orchard, with a minimum same day spend of \$20. Consumers can earn green points when they participate in an eco-conscious action for their purchases at ION Orchard such as using your own shopping bags, mugs, food containers etc. or purchasing any eco-friendly products at selected stores.</p>
Just Dabao	<p>Just Dabao is a social impact start-up that has prevented over 15,000kg of food waste since 2021. Major F&B brands such as Marché Mövenpick, Maison Kayser, Baker's Brew, SaladStop! and 500 others have joined forces with Just Dabao to sell their excess food instead of throwing them away.</p> <p>In support of SYTWL, Just Dabao will be running educational content geared towards reducing food waste, as well as interactive games such as crossword puzzle and spot the differences. Consumers who can guess correctly stand a chance to win a surprise gift.</p>
Khoo Teck Puat Hospital	<p>Khoo Teck Puat Hospital (KTPH) is committed to minimising the environmental impact of its daily operations where possible, without compromising patient care and safety.</p> <p>KTPH is a passionate advocate of the 4Rs approach: Refuse, Reduce, Reuse and Recycle. It has substituted disposable cutleries with reusable ones for internal catering services, while using food composters to break down food remnants into mineral-rich soil that is used to fertilise the hospital's gardens.</p>

	KTPH has also influenced and collaborated with their tenants to implement the Bring Your Own Food Container (BYOC) campaign, where patrons enjoy discounts when they bring their own containers.
Kiztopia	<p>To support Say YES to Waste Less campaign, Kiztopia put up wobblers to encourage customers to BYOB at their Marina Square gift shop. The display of a Say YES to Waste Less exhibit at Marina outlet doubles up as a photo spot and channel to spread the green message. There will also be worksheet activities for kids during onsite segment at Eco Discovery Hub and the upcoming March Holiday Enrichment Program – ‘I Can Support Sustainability’.</p> <p>For March’s Eco Discovery Hub, there will be celery stalk stamping art, spot the difference & crossword puzzle. Worksheets will contain information such as keywords to reduce general waste and food waste.</p> <p>Brochures will also be distributed to share information on how one can do their part to reduce waste during the March Holiday Workshop ‘I Can Support Sustainability’ & Eco Discovery Hub.</p> <p>For customers who choose to BYOB at their gift shop at Marina Square, they can redeem a freebie in the month of March.</p>
KOI	KOI encourages customers to play a part in going green by bringing their own bottles at its outlets. KOI also pushes out merchandises that promote going green, for example eco cup sleeves, cups, and straws.
Lawry's The Prime Rib	Lawry’s The Prime Rib Singapore restaurant encourages patrons to bring their own bags and food containers for takeaway orders. In addition, disposable cutlery for takeaway orders will only be offered upon request.
Lendlease	As part of its Sustainability Framework, Lendlease is committed to encouraging the community to reduce waste in Singapore and be more sustainable. In the landmark study ‘Circularity in Retail: Tackling the Waste Problem’ released in 2021 in partnership with WWF-Singapore, Lendlease found that the way to improve overall waste reduction and recycling rate in the retail sector was by harnessing technology, reducing high volume waste such as food and plastic, and nudging the community towards a lifestyle of recycling.
LepakInSG	LepakInSG, an environmental advocacy group, runs a one-stop calendar listing environmental events and activities in Singapore. In support of SYTWL, LepakInSG will be organising a panel discussion on plastic production and plastic waste. More details will be updated on LepakInSG’s Instagram page.
LeVeL 33 Pte Ltd	<p>LeVeL33 has long committed to a multifaceted approach to environmental and social responsibility. For instance, LeVeL33 has cooperated with Food from the Heart since 2017 to collate and share their unused produce and breads with families who need some assistance with their groceries.</p> <p>Since 2020, they have been participants in a local “ugly vegetable” programme, which supplies a large proportion of their plant produce to this day. LeVeL33 also rejects using palm oil in its entirety and filters their own water to use and serve to guests. This all means that LeVeL33</p>

	reduces waste, fuel and minimises their carbon footprint in many different ways, and guests do the same simply by dining there.
LiHO TEA	<p>In support of SYTWL, LiHO TEA is running a Bring Your Own Bottle (BYOB) day on 25 March 2023. Customers can BYOB and receive the signature Da Hong Pao Tea at \$1 only. The proceeds will be fully donated to charity.</p> <p>LiHO TEA opened an eco-friendly outlet at Khoo Teck Puat Hospital in December 2021, promoting initiatives to reduce sugar intake, use of plastic, and wastage. Plastic straws are not offered. Instead, bio-degradable PLA straws will be given should straws be required for consumption. Drinks are only offered in medium size only, to reduce potential wastage. LiHO TEA also gives a 50-cent discount when customers bring their own cups at KTPH.</p>
Liliewoods Social	<p>Liliewoods Social is a Singapore children's lifestyle store that curates quality children, furniture and lifestyle products.</p> <p>To join in the reduce/reuse movement, Liliewoods Social will stop providing new plastic bags for shoppers, and be switching fully to reusable shopping bags, and gift bags that encourage reusability. During the SYTWL campaign period, they will also display the NEA SYTWL wobblers and play the SYTWL song on their storefronts to pledge their commitment to the initiatives.</p>
Locaba Bakery	<p>Locaba Bakery creates guilt-free desserts that are Low-Carb, Diabetic Friendly, Refined Sugar Free, Gluten Free and Keto with Vegan and Nut-Free options available. Their plant-based range has continued to grow from cakes, gelato, cupcakes, cookies and more. They create more options for people to enjoy items that have a lower environmental impact and are better for their health. Additionally, for more than a year and a half now, they have been working closely with Divert for 2nd Life – an organisation that rescues unsellable goods and trimmings by distributing them to people-in-need for items that are still in good condition to be consumed or composting items that can no longer be consumed.</p>
L'Oréal	<p>L'Oréal Singapore is the first and only beauty company to receive the NEA 3R Award for Shopping Malls. Their L'Oréal For the Future 2030 vision encompasses goals for a circular economy, such as waste reduction and electric vehicle trial delivery to stores in western Singapore. They launched meaningful initiatives, including Upcycling and Photography Exhibitions in conjunction with Movement for the Intellectually Disabled in Singapore (MINDS), and an Upcycling Initiative with National University of Singapore, South West Community Development Council, and National Environment Agency to turn empty beauty containers into meaningful items. They also encourage customers to bring their own bag through visual reminders in their retail store.</p>

LUSH	<p>As part of Lush Singapore's zero-waste initiatives, its paper bags are now chargeable at 10 cents across all outlets to ensure that customers use what they need and reduce waste contribution.</p> <p>Lush Singapore also takes full responsibility in the packaging it uses as an important step in moving towards a circular economy. It has implemented a five empty black pot recycling policy in stores as a continuous conscious effort, where customers are encouraged to bring back five cleaned Lush black tubs for a free fresh face mask of their choice.</p> <p>As a brand, it continues to work towards more sustainable living by inventing more naked product options, developing unique packaging, and focusing on reusable packaging items.</p>
M1	<p>M1 incorporates sustainability practices in their business operations. Efforts include providing reusable bags to customers instead of single-use carrier bags, placing e-waste recycling bins at all M1 shops, and encouraging customers to adopt the M1 eBill. The M1 Sustainable Office Programme, launched company-wide in May 2019, is introduced to all new staff during orientation.</p>
Mandai Wildlife Group	<p>Initiatives to support waste management include the Animal Playground, an animal enrichment space in Singapore Zoo created by reusing or upcycling used or discarded materials that have been salvaged from the premises. This enrichment space enhances welfare for its animals while showcasing its sustainability initiative and can serve as inspiration for guests to practise upcycling.</p> <p>40 per cent of the vegetables for animal feed are rescued 'ugly' or bruised vegetables that are still of good quality. The Group is also piloting the use of invertebrates like Malaysian blue worms and black soldier fly larvae to compost animal food waste generated at the parks.</p> <p>Under the Ranger Buddies programme, 20,000 children have been educated on the importance of reducing single-use plastic and recycling through physical activations, digital activities and shows. A behaviour change campaign targeted at staff is slated for launch in 2023 to reduce waste as an organisation.</p>
Marina Bay Sands	<p>Marina Bay Sands (MBS) deploys a disposables scorecard for selected business units to help manage and reduce single-use disposables. Examples include the removal of secondary plastic packaging for in-room amenities and replacing them with high quality reusable options.</p> <p>A new Southeast Asian counter was launched in the Integrated Resort's Team Dining Room in 2022 to serve the same food as the Halal food counters. Historically, the Halal section is provided with exclusive reusable bowls and plates for Muslim staff, while non-Muslim Team Members used disposables to enjoy the same dishes. This new Southeast Asian station allows for Team Members to enjoy the same Southeast Asian delights while using reusable ware. The removal of these disposables also resulted in a cleaner food waste stream.</p> <p>Selected kitchens employ innovative technology to measure and reduce</p>

	<p>food waste at source, while the remaining food is broken down into non-potable water by five aerobic digestors. Food waste is also processed into a residual material with high calorific value that is fed to black soldier flies, which can potentially be utilised as fish feed. Unserved food is donated to long-term partners Food from the Heart and The Food Bank Singapore.</p>
McDonald's Singapore	<p>Since December 2021, McDonald's Singapore made a landmark move towards reducing single-use plastics by introducing strawless lids for all cold cup beverages. With support from customers, the move has helped to save almost 40 million straws in a year. This green measure joins a whole host of other sustainability initiatives in place for everyone to play their part in ensuring a sustainable future.</p>
Metro	<p>To encourage zero-waste habits amongst its shoppers, Metro signed the Retail Bag Charge pledge with WWF-Singapore in 2021 and reminded shoppers to bring their own carriers through press-ads, social media, and in-store reminders. Metro further enhanced this collaboration since January 2022 by providing an area for WWF merchandise sales and display within the store to raise awareness and support conservation efforts.</p> <p>In 2022, Metro participated in green initiatives such as Earth Hour, partnering Food from the Heart to be a collection point for food donations, and organising a beach clean-up activity with WWF-Singapore. Since November 2022, Metro started using FSC paper for its shopping bags and packaging materials like gift wrap paper and gift cards.</p> <p>Metro continues to seek ongoing support from stakeholders and urges all in the community to join in their sustainability efforts to collectively work towards the goal of net zero emissions by 2050 as a nation.</p>
Mothercare	<p>Besides building a strong reputation for product specialism, quality, safety, and innovation, Mothercare is committed to pledging towards a zero-waste nation in plastic packaging reduction, incorporating sustainable packaging to bring-your-own-bag initiatives. As an organisation, it believes in doing its part for sustainable living and creating a better world for children.</p> <p>Currently, efforts include charging for the use of paper bags (20 cents each) and encouraging customers to donate used Mothercare fashion hangers across all stores for recycling efforts. Since September, Mothercare has also stepped up to deter plastic bag usage, imposing a 20-cent charge on the use of each plastic bag, motivating customers to bring their own shopping bags. The company will continue to explore and introduce new measures to go green in the coming months.</p>
Mr Bean	<p>As a soymilk F&B chain store brand, Mr Bean produce soymilk daily and there is a huge amount of soy pulp (okara) generated. Okara is rich in nutrients which contain non-soluble and soluble fiber, calcium, protein, and other minerals. Over the years, they have started upcycling some of the okara generated by using it as raw ingredients in their soy granola bar.</p>
MUJI	<p>Since April 2021, MUJI has stopped issuing plastic bags and implemented charges on paper bags to encourage customers to bring</p>

	<p>their own reusable bags. 50% of the paper bag proceeds are donated to Zero Waste SG. To reduce wastage of packaging for bulky items, MUJI has implemented strapping machines in all stores as an alternative packaging.</p> <p>MUJI is also constantly reviewing product packaging to reduce waste, eliminate the use of plastics and switch to eco-friendly packaging such as using paper for hooks, hangers, boxes, tags, and labels.</p> <p>MUJI holds occasional workshops for the public in their stores on upcycling with materials that are otherwise discarded, such as making old clothes into coasters and discarded wood into keychains.</p> <p>From November 2022, beeswax wrap made using MUJI fabric remnants are co-produced with a local company and sold in MUJI Plaza Singapura and MUJI Jewel Changi Airport store.</p>
Muuse	<p>With a smart system of reusable returnable packaging, Muuse offers corporates, cafes, and customers a convenient alternative to single-use packaging. So far, Muuse has saved over 75,000 single-use items across its markets. Customers can simply borrow a reusable, enjoy their food and drinks, and return it for professional cleaning.</p> <p>By tagging each reusable with a unique QR code, Muuse can track and monitor each reusable in its system, allowing for optimised inventory management and accurate impact data. With a return rate of 98 per cent, its proprietary expertise can extend beyond F&B to make sustainable convenience a reality for multiple consumer products.</p>
Neal's Yard Remedies	<p>Neal's Yard Remedies is dedicated to trading sustainably and pioneering ways to support people and the planet. They use FSC paper bags and offer optional recycled tote bags for purchase.</p>
North East Community Development Council (CDC)	<p>North East CDC will engage and encourage stakeholders to support the Say YES to Waste Less campaign through online publicity amplification throughout this campaign period. Additionally, North East CDC will incorporate SYTWL messaging in the North East Green Adventure workshops for pre-school children through engaging skits, sing-along music, hands-on activities, and fun quizzes.</p>
North West Community Development Council (CDC)	<p>North West CDC, as a champion of environmental responsibility, will advocate and sustain Green programmes to build a holistic green ecosystem within the North West, and provide platforms for residents to learn about and practise green living.</p> <p>The CDC will also lead by example and continue to adopt green practices such as reducing the use of disposables, food waste and printed materials across their operations and events.</p>
OG	<p>Committed to the protection of the environment, OG Department Stores has consistently participated in Earth Hour as well as NEA's Say YES to Waste Less campaign. By Q1 2023, OG is planning to implement a new green initiative which will discourage the use of single-use plastic bags and introduce a new line of reusable bags at affordable prices.</p> <p>OG also exercises the 3Rs (Reduce, Reuse, Recycle) in their operations and encourages customers to adopt a sustainable, zero-waste lifestyle</p>

	<p>through social media posts and by selling a wide range of reusable products that include cutlery, food jars, tumblers, and lunch totes.</p> <p>Another key effort in its sustainability commitment includes reusing paper carton boxes for e-shop purchases where possible. In addition, OG trains their staff to remind customers to use plastic bags sparingly and make use of reusables wherever possible.</p>
Old Chang Kee	Old Chang Kee is happy to be supporting this year's Say YES to Waste Less Campaign 2023. They encourage their customers to bring their own reusable containers to pack Old Chang Kee snacks home.
Orchard Road Business Association (ORBA)	ORBA engages and encourages Orchard Road stakeholders to support the Say YES to Waste Less campaign by disseminating EDMs and collaterals throughout the campaign period to all their members.
OSIM	OSIM, an international Wellness Tech brand, has implemented a sustainable product upgrading programme in which customers are encouraged to trade in their pre-loved OSIM products. Through this programme, serviceable units are refurbished and donated to needy organisations, while inoperable units are dismantled and recycled. The sustainable upgrading programme is in line with OSIM's overarching philosophy to design products that are maintenance-free and reduce parts wastage. In addition, OSIM has taken steps towards implementing eco-friendly solutions in their retail operations such as energy-efficient lighting at stores, displays, and road shows, as well as paperless options and eco-conscious product packaging.
Otolith Enrichment	<p>Otolith is a social enterprise that advocates for circular ecosystems and sustainability. Otolith is active in the areas of aquaculture, agriculture, and environmental science. They are committed to facilitating the building of infrastructure to realise the organisation's vision of a better, cleaner world. They believe in the importance of going beyond imparting knowledge and technological skills and are committed to enabling others to become active participants in the green movement.</p> <p>Otolith Enrichment will be producing an activity booklet for participants of their Black Soldier Fly Eco Farm Tour at Sustainability @ Tampines Park, where participants will learn about the use of black soldier fly larvae to upcycle food waste from nearby residents and schools. Through the experience, participants will learn how to reduce their food waste and contribute to a greener Singapore.</p>
Pan Pacific Hotels Group	<p>Pan Pacific Hotels Group is committed to integrating responsible environmental practices, including minimising waste across its properties. Apart from reducing single-use plastic waste, food waste digesters have been implemented in all its hotels in Singapore to convert food waste to grey water, which can be processed for general washing and cleaning. Furthermore, food waste is channelled directly from the grinders to the digesters which reduces the amount of plastic trash bags required.</p> <p>Some of its hotels repurpose used coffee grounds into compost and work with partners to upcycle used aluminium coffee capsules into useful products. Other initiatives such as changing to waterless chafing dish systems, which use refillable fuel cans instead of traditional chafing fuel pots, significantly reduce waste and carbon emission.</p>

Park Hotel Group	<p>Grand Park City Hall has always taken conscious steps towards sustainable initiatives to protect planet Earth. Tablescape Restaurant & Bar, located in Grand Park City Hall, will support the campaign by bringing back a popular Rosemary Apple tart to be added to their Afternoon Tea Set. This time, the rosemary used in the tart will be taken from the hotel's very own Herb Garden.</p> <p>Both Grand Park City Hall and Tablescape Restaurant & Bar pledge their commitment to SYTWL in 2023.</p>
PAZZION	<p>PAZZION has a long-standing commitment to doing business responsibly and is focused on its ambition to contribute to a greener future. This year, the company took a step further to reduce waste by cutting down wastage of paper bags and recycling its coffee grounds from PAZZION CAFÉ into coffee scrub bars that are made from natural ingredients. These initiatives will begin in March 2023.</p>
Pepper Lunch	<p>Pepper Lunch has stopped providing plastic straws and plastic drink lids for customers at all seven restaurants across Singapore.</p> <p>Other efforts to reduce the use of plastic include using paper bento boxes and paper bowls for takeaway and delivery orders, and lastly, using paper cups and ceramic mugs to serve dine-in customers.</p>
PlasticLite Singapore	<p>Plastic-Lite Singapore (PLSG) is a volunteer group that aims to inspire Singaporeans to adopt an environmentally conscious, plastic-lite lifestyle. The non-profit grassroots group conducts outreach-advocacy activities in the community as well as in educational institutions and corporates. One of their ongoing initiatives under community outreach is called Bounce Bags, which is a common collection and retrieval point for sharing of reusable bags near supermarkets that seeks to reduce the usage of single-use plastic bags. They also consult corporates and F&B establishments on their sustainability practices.</p>
Polar Puffs & Cakes	<p>Polar Puffs & Cakes embarked on going paperless. They provide plastic bags only upon request for single serving items to reduce the usage of single-use plastics. The provision of straws at the outlets are also only given upon request.</p> <p>A “Bring your own containers/packaging” programme will also be implemented soon to encourage customers to bring their own containers or Polar’s reusable packaging. Customers who bring their own containers and cups will be given a discount of 10 cents off the total bill. This will largely be practised at all the In-Café dining outlets islandwide. In-Café dining will move away from using disposables by Q3 of 2023.</p>
POPULAR	<p>In June 2021, POPULAR launched the “Towards a Zero Waste Lifestyle with POPULAR” campaign to enlist customers’ support to reduce plastic usage and minimise waste. Cashiers proactively encourage customers to bring their own bag every day and plastic bags are provided only upon request. Through this, POPULAR hopes to instil the habit of bringing one’s own reusables and raise consumers’ awareness about reducing plastic consumption. To further encourage a zero-waste lifestyle, POPULAR has also identified and tagged eco-friendly product options in-store so that customers can make informed choices when shopping. POPULAR rewards customers with a free recyclable tote bag worth \$2.90 when they spend over \$120 in stores.</p>

Presto Drycleaners	Presto Drycleaners is actively reducing plastic usage by encouraging its customers to use its eco-fold option, where all items are folded and packed in one bag. For items which are hung, garments are packed in twos to reduce usage of plastic covers.
Prime Supermarket	Prime supports the nation's programme of building a green environment. The supermarket has been actively embarking on a sustainable journey to reduce disposable bag waste, and its frontline staff have been engaging and reminding customers to bring their reusable bags. Prime also offers reusable bags at affordable prices in stores. Prime continues to engage and encourage customers to reduce waste through its communication platforms such as social media, in-store posters, and messages on its website.
Qiji	Qiji is consciously aware of the impact on the environment contributed by the waste generated through daily lives. It actively engages its consumers through its Bring Your Own Reusable Container (BYORC) campaign and encourages the use of reusable cutlery.
Qualcomm	<p>In line with Qualcomm's Sustainability Goals, recycling bins were deployed throughout the company to promote and collect recyclables and reduce waste. Non-Governmental Organisations were invited and engaged to increase awareness amongst employees on the topics of Recycling Right and the UN Sustainable Development Goals.</p> <p>Qualcomm RF360 Singapore has incorporated the SYTWL logo on reusable bags which have been given out to employees. This initiative aims to encourage employees to reduce their usage of disposable plastic bags by utilising a reusable bag.</p>
Quan Shui Wet Market	<p>Quan Shui Wet Market is a third-generation brick-and-click wet market business that is on a mission to revolutionise the massive fresh food industry with their consistent high-quality products and services.</p> <p>With sustainability as one of the core values of the company, Quan Shui Wet Market has implemented several zero-waste initiatives such as actively collecting and reusing delivery Styrofoam boxes, utilising more reusables despite higher costs, limiting single-use plastic packaging to a maximum of two for each product. Quan Shui Wet Market has dedicated an entire month of marketing efforts towards raising awareness on reducing waste in households in addition to producing evergreen educational content to encourage adoption of zero-waste habits in Singaporeans.</p>
Razer	As part of the brand's ten-year roadmap towards sustainability, Razer prioritises reduction and recycling in its decarbonisation journey. Since the first RazerStore opening in 2016, all RazerStores globally have reduced single-use plastics through offering woven, reusable bags to Razer customers. Since 2021, Razer has also eliminated offering single-use plastics to employees across all its global corporate offices. Razer is encouraging customers at RazerCafe to reduce waste from disposable stirrers, cup covers and straws by only taking what is necessary.
RedMan by Phoon Huat	RedMan by Phoon Huat stores actively promote the use of recyclable bags via its 'Bring Your Own Bag' campaign displayed at all its retail outlets' in-store TVs. Additionally, its plastic bags are 100 per cent biodegradable and are no longer provided free of charge, with part of the

	proceeds being donated to APSN through Community Chest. Its stores also offer heavy discounts on close-to-expiry products to minimise waste.
Resorts World Sentosa	Resorts World Sentosa (RWS) recycles 10 waste streams — paper/cardboard, plastic, glass, metal cans, food waste, cooking oil, e-waste, linen waste, wood pallets and spent coffee/horticulture — and has deployed recycling bins throughout the resort. RWS has also ceased the provision of single-use plastic straws, stopped sales of single-use plastic water bottles, as well as initiated phased reduction and elimination of single-use plastic tableware. Reusable or other sustainable alternatives have been offered in place of plastic options, saving approximately 130 tons of plastic per year.
SaladStop!	<p>SaladStop! encourages customers to Bring Your Own (BYO). Customers who bring their own containers or borrow a Muuse container available at the outlets for takeaways will receive a free standard topping.</p> <p>Similarly, when customers bring their own cups or borrow a Muuse cup, they will receive a 50-cent discount for the beverage.</p> <p>SaladStop!'s loyalty programme rewards customers with a free coconut water after every 10 Bring-Your-Own transactions on https://order.saladstop.com.sghttps://order.saladstop.com.sghttps://order.saladstop.com.sg</p> <p>SaladStop! discourages customers to buy disposable bags (sold at 10 cents per paper bag, with proceeds going to WWF) and instead, they are directed to the Borrow Tree, where they can borrow a used bag, and return it after they are done.</p>
Salmon Samurai	Salmon Samurai is taking steps to strive for sustainability. It encourages the use of reusable containers to reduce the use of disposables, and cutlery is only provided when requested by the customer. To save on food wastage, customers can request for less rice, noodles, or other toppings.
SBS Transit	To reinforce the habit of saying no to single-use waste, SBS Transit in collaboration with NTWU Canteen is offering a 10-cent rebate to customers who bring their own containers for take away drinks. This initiative is currently on trial at Ang Mo Kio Depot and Sengkang Depot.
Scoop Wholefoods	Scoop Wholefoods offers a wide variety of raw organic and natural wholefoods for their customers at affordable prices combined with flexibility, quantity, and selection. Their products include nuts, dried fruits, spices, rice, pasta, tea, chocolates, freshly made nut butters and so much more. They source their products primarily from certified Australian and New Zealand growers and suppliers. The store makes every effort to ensure that other products come from ethical and sustainable sources. To keep their carbon footprint as light as possible, they minimise the use of packaging and chemicals in their activities as part of their contribution to the local community and the long-term wellbeing of the planet for this and future generations.
Secondsguru	Secondsguru is a social enterprise with a mission to promote environmental education and eco-awareness. It conducts talks and workshops, leads community outreach, and publishes online resources on Secondsguru.com. With the motto 'Green Living. Made Easy', it

	<p>focuses on solutions that make sustainable living a fun, creative and practical goal for all.</p> <p>Secondsguru is currently running the eighth edition of its flagship community programme, the 'Zero Waste Bootcamp'. Focused on 18-35-year-old youth in Singapore, each edition spans over a period of 12 to 16 weeks. Participants not only learn about Singapore's waste-cape, but also gain skills and knowledge to carry out meaningful projects aimed at Saying YES to reducing food wastage and littering.</p>
Shangri-La Hotel	<p>Shangri-La Singapore has implemented food waste management initiatives at selected kitchens within the hotel, which utilises an eco-waste digester system since 12 Dec 2019. The system adopts customised biotechnology to accelerate the natural decomposition of food waste, where microbes break down the discarded food into non-portable water. This bio-enzyme infused water is then used to flush the sluice pipes, achieving a circular waste management process. Consumers are also encouraged to avoid disposable cutlery where possible.</p>
Sheng Siong Supermarket	<p>Sheng Siong has continued to support efforts to reduce the use of disposables and food wastage by encouraging customers to bring their own bags, handle fresh produce with care and shop wisely through social media posts and collaterals across their stores. Sheng Siong has taken a more proactive stance to reduce the use of plastic by reviewing operational procedures on the bagging of products, product packaging, and transport packaging.</p>
Sheraton Towers Singapore	<p>In support of building a sustainable environment, employees at Sheraton Towers Singapore encourage guests to go green by bringing their own container, mug, or bag for takeaway items at the F&B establishments. Guests can request for a smaller serving for their meals to reduce food waste. For meetings and events, guests may choose to go with individual sets instead of buffets to reduce wastage.</p>
Singapore Environment Council	<p>Singapore Environment Council (SEC) helps an increasing number of organisations embrace impactful environmental sustainability initiatives, committing themselves to align with Singapore's 2030 Green Plan and accelerated net zero aspirations.</p> <p>SEC continuously engages all sectors of the community by formulating and executing a range of holistic programmes, such as the Singapore Environmental Achievement Awards, Asian Environmental Journalism Awards, School Green Awards, Singapore Green Labelling Scheme, Eco-Office, Eco-Shop, Eco-F&B and Eco-Events. In addition, SEC continues to build a pool of committed volunteers under the Earth Helpers programme.</p>
Singapore Hotel Association	<p>The Singapore Hotel Association strongly supports the Say YES to Waste Less campaign. It will, through its Hotel Sustainability Committee, encourage hotel members to leverage this meaningful campaign to showcase their best practices in waste management and be part of this nation-wide movement to reduce waste.</p>
Singapore Retailers Association	<p>The Singapore Retailers Association (SRA) is committed to sustainable practices in retail for the betterment of the environment. SRA has been reaching out to retailers to encourage greater awareness as well as garner their support for Singapore's Say YES to Waste Less campaign.</p>

	<p>Moving forward, SRA will explore working closely with NEA to achieve Singapore's Zero Waste vision.</p>
Singtel	<p>Singtel is committed to reducing, reusing, and recycling electronic packaging and corporate waste across its operations and value chain.</p> <p>In December 2021, all-digital mobile brand GOMO launched its half-sized SIM card, which reduces plastic waste. The SIM card packaging utilises environmentally friendly materials to further minimise environmental impact.</p> <p>The Donate Your Device initiative was also kickstarted to support customers' efforts to minimise their e-waste. Customers can drop off their preloved devices at selected Singtel shops to be refurbished and distributed to vulnerable communities.</p>
SMRT Trains Ltd	<p>SMRT collaborates with community partners and industry experts and leverages its network advertising assets for public education campaigns. A recent example is the Green Living campaign that focuses on green commuting, energy conservation and food waste reduction. SMRT's support for the Say YES to Waste Less campaign complements the Green Living campaign as it encourages shoppers to reduce their consumption and wastage. About 400 retail spaces within its network will carry these messages to encourage more sustainable lifestyles.</p> <p>As a public transport service provider, SMRT believes in its responsibility to the community to provide a safe, reliable, and sustainable transportation system. Besides providing the greenest and most sustainable mode of public commute, it recognises that sustainability is more achievable when everyone comes together and plays their respective roles. It hopes these messages in its network reaches out to its community as Singapore collectively progresses to realise the SG Green Plan 2030.</p>
South East Community Development Council (CDC)	<p>South East CDC will amplify the Say YES to Waste Less message through the CDC's digital platforms and encourage their community partners in the district to support the campaign.</p>
South West Community Development Council (CDC)	<p>South West CDC has been building an environmentally-conscious district over the past decade. Its renewed 10-year sustainability masterplan, the Sustainable South West, was launched in November 2019 to set new targets for a greener and more liveable district, with 'Towards Zero Waste' as one of the key pillars.</p> <p>The annual flagship event 'Clean Up @ South West' raises awareness of key environmental issues in the community and encourage residents to minimise waste. The South West CDC also launched 'Zero Waste Testbed Initiative @ South West' in January 2021 to empower and support youths in the co-creation of innovative zero-waste initiatives.</p> <p>South West CDC continues to promote zero-waste through efforts such as reducing the use of bottled mineral water and encouraging the public to bring their own bags and water bottles at community events.</p>
SP Group	<p>Developed by SP Group (SP), the SP app empowers individuals to contribute to smart and sustainable future by managing and making</p>

	<p>smarter choices with greater awareness of their consumption of utilities. As one of the leading sustainability apps in Singapore, users can also be rewarded through its GreenUP programme for adopting a greener lifestyle, analyse their carbon footprint, green their electricity consumption with My Green Credits™ and more.</p>
Starbucks	<p>Starbucks continuously strives to reduce their environmental footprint. Starbucks offers a 50-cent discount when customers bring their tumblers or mugs, and a free drink with any purchase of a Starbucks tumbler for their members. Locally produced lifestyle merchandise such as reusable straws, hot and cold cups, tote bags and reusable containers are offered to drive bring-your-own habits.</p> <p>As parts of their commitment to reduce waste, they have developed paper bags made of 95 per cent post-consumer fibre, napkins of 100 per cent recycled content, to-go plastic cups made with recycled plastic, and strawless lids for all to-go iced drinks. Hot and cold cups are available for all dine-in beverages.</p> <p>In their ongoing efforts, Starbucks also piloted a Borrow-A-Cup programme in selected stores in partnership with Muuse and encourage customers to upcycle through their #UpcyclingwithStarbucks tutorial series and sustainability workshops. They offer used coffee grounds to customers for upcycling or gardening for free when requested. More new initiatives will also be launched in this year.</p>
Superlative Foods	<p>As a certified organic and halal food manufacturer in Singapore, Superlative Foods makes sustainability easy, affordable, and nutritious for clients and consumers. Aside from sourcing responsibly, the company has moved towards compostable packaging, which reduces carbon footprint and single-use plastics.</p> <p>Their FILL GOOD zero-waste outlet, in partnership with FairPrice Group, solely offers their customers compostable paper bags and glass jars. Through their loyalty program, customers are rewarded for their sustainability efforts when they bring their own containers. The store has since saved more than 200,000 plastic bags. Superlative Foods is committed to helping its customers embark on their own sustainability journeys and bringing greater environmental awareness to the community.</p>
susGain	<p>susGain is a free mobile app that rewards Consumers, Businesses and Communities in Singapore for becoming more sustainable.</p> <p>To raise awareness on Singapore's waste problem and encourage citizens in a fun and rewarding way to adopt a more sustainable lifestyle, susGain will be running the Say YES to Waste Less Challenge in the month of March 2023, where participants will stand a chance to win prizes when they earn points in the app for actions that reduce waste such as bringing reusable food containers and shopping bags, refilling water bottle at public fountain, and recycling.</p>
Swapaholic	<p>Swapaholic, is a pre-loved fashion service devoted to sustainable consumption. It encourages consumers to declutter and refresh their wardrobes without harming the planet or their wallets. Fashion is the second largest polluting industry globally largely, owing to the cycle of</p>

	<p>over production and consumption. As a social enterprise, Swapaholic is devoted to making the industry more sustainable by offering a platform to swap, sell and buy preloved fashion. Swapaholic's endeavour is to circulate existing resources thereby reducing fashion overproduction which has detrimental impacts on our planet and people.</p> <p>Swapaholic will be having an online soft launch of their peer-to-peer marketplace and organising Swap Parties at three venues between March and April. They will also be including the SYTWL campaign logo in their event collaterals and share about the initiative during their events.</p>
Swee Heng	Swee Heng Bakery Pte Ltd will continue to encourage customers to reduce usage of plastic bags. Outlet staff are trained to check with customers if they require any plastic bags during off-peak periods in the stores.
Tadcaster Hospitality	In mid-2017, Tadcaster Hospitality made a commitment to adopt and develop sustainable practices across all its outlets, with initial efforts focusing on the elimination of disposable plasticware and the introduction of blue recycling bins for the large amount of glass bottles their bars routinely use. Post-pandemic, they have been looking at more ways to reduce food waste, utilise more locally sourced produce to reduce carbon footprint, and adopt more digital formats for menus, posters, and timecards to decrease paper wastage. They are also in discussions with some local suppliers to return used beer bottles for washing and reusing rather than disposal.
Takashimaya	<p>Takashimaya Department Store has been ramping up its sustainability efforts and emphasising going green since its 'Love the Earth' campaign dating back to 2019. Since 2022, Takashimaya has been a part of the Say YES to Waste Less campaign, emphasising the creation of a more sustainable and recycling-oriented society by launching a series of sustainable campaigns and collaborations.</p> <p>In 2023, Takashimaya will participate in the OneMillionTrees Movement initiated by NParks with aims to plant 300 trees in 2023 to celebrate the Store's 30th Anniversary. In preparation, the Store kickstarted a Bring Your Own Bag (BYOB) movement in April 2022. Takashimaya has also launched three exclusive reusable bag designs in 2022 and will be launching four more exclusive reusable bags in 2023, where profits from sale of the bags will go towards supporting this campaign.</p> <p>Takashimaya encourages its customers to join its efforts to advocate for sustainability and show love for the planet.</p>
Tanglin Mall	The public can join Tanglin Mall on their sustainable journey in March 2023 with a series of engaging activities such as learning about environmentally friendly practices through interactive games, encouraging recycling activities while shoppers shop and dine in the mall, and reducing waste by upcycling recyclables into purses and building self-sustaining terrariums. Shoppers who bring their own reusable bags, cups, or food containers will also be rewarded with 500 Great Rewards points (worth \$2.50) with minimum \$20 spent from 4 to 31 Mar 2023. Terms and conditions apply.

TANGS	<p>TANGS recognises that sustainability is a collective effort between the company and the community. Its sustainability framework goes beyond the conservation of precious natural resources to the ongoing drive towards developing a self-sustainable ecosystem through the adoption of mindful habits. This can be as simple as bringing your own bags with you when you shop, to supporting brands and vendors with sustainability-minded business practices such as reducing the carbon footprint through mindful nutrition.</p> <p>Its stores boast a myriad of eco-friendly favourite brands, committed to saving the planet through conscious choices that matter in the long run. From fabric selections to updated production processes to encouraging responsible consumption, its sustainable initiatives are implemented with one goal in mind: going green.</p>
Tanuki Raw	<p>Tanuki Raw, a modern Japanese restaurant popular for its donburi and cocktails, incorporates sustainable practices in their operations. Reusable metal straws are provided for selected cocktail drinks that require straws. They also work with a licensed cooking oil recycler to provide new uses for used cooking oil. To discourage the use of disposable cutlery, they are made optional for deliveries and takeaway.</p>
Terra SG	<p>Terra SG is a people-powered movement for positive environmental change. As a social enterprise with sustainability and humanitarian focuses, Terra SG's work revolves around initiating and empowering people through running eco-education programmes, building green spaces, organising sustainable events, managing the Sustainable Singapore Gallery, and powering upcycling activities & workshops.</p> <p>In support of SYTWL, Terra SG will be running a series of social media posts about the importance of reducing waste in their everyday life.</p>
The Body Shop	<p>The Body Shop takes pride in creating products that contain ethically sourced and natural origin ingredients to incorporating Community Fair Trade recycled plastics into their packaging and making them fully recyclable.</p> <p>The company works closely with their customer-community to reduce waste through various initiatives like their Kick The Bag campaign where shoppers are encouraged to bring their own shopping bags, and the Return.Recycle.Repeat campaign where customers can drop off their The Body Shop empty plastic containers at any of The Body Shop stores for recycling. In addition, shoppers can also opt to purchase their favourite products in sustainable refill format at selected stores.</p>
The Eco-Statement	<p>The Eco-Statement aims to instil eco-conscious behaviour through specially curated games, workshops, and products. They seek to change the narrative on waste and demonstrate that any individual can positively impact the community by their actions. These actions then inspire others to reduce waste and think proactively about their impact to create a sustainable world for all. In line with their purpose, they have created The Karang Guni Trail board game and Recycle Right card game.</p> <p>The Eco-Statement will be displaying the SYTWL logo and incorporating SYTWL messaging at their educational booth.</p>

The Fullerton Hotels & Resorts	At The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore, single-use plastic cutleries, straws and stirrers have been eliminated and replaced with alternatives. Single-use plastic bags have been replaced with reusable non-woven bags and paper bags. Food waste digesters were installed at The Fullerton Hotel Singapore to reduce food waste.
The Jolly Roger	The Jolly Roger has implemented a few initiatives to minimise waste. They encourage their customers to bring their own reusable containers for takeaways and minimise the provision of unnecessary plastic bags. All bottled beer and wine are sorted in a separate bin for recycling. They also refrain from using straws when serving drinks. They minimise food wastage in the kitchen and among customers by avoiding over-ordering and keeping a close eye on portion control.
The Meat Club	The Meat Club products are cut and packed at the source, eliminating re-packaging material that often goes with traditional butchers and supermarkets. To keep things cool and sustainable, they deliver products using reusable and eco-friendly chiller bags. After a delivery is completed, customer can opt in to have the bags returned to the delivery partner for future deliveries or repurposed for other uses, eliminating waste.
The Rainbow Artisan	<p>The Rainbow Artisan aims to add value and joy to life with carefully curated handmade products, creative workshops, and nature-based Eco-Wellness programmes. Their mission is to maintain and enhance personal, mental, and environmental wellness for people and the planet.</p> <p>The Rainbow Artisan organised an Eco-Wellness experience on 18 February 2023 from 2 to 3pm, at Pasir Ris Park, under a 'Pay-As-You-Wish' model. The Eco-Wellness experience consisted of workshops and programmes where participants were introduced to the concept of Eco-Wellness which enhances holistic well-being for yourself and the planet using 6 simple steps — be mindful, active, kind, grateful, connect and learn. During the walk and talk, participants learnt about the circular aspect of nature, and how we can learn from nature to reduce, reuse, repurpose and recycle. The Rainbow Artisan will also be running an online giveaway on their social media encouraging their community to share their tips on reducing waste</p>
The Working Capitol	<p>The Working Capitol (TWC) encourages its members to bring their own containers, cups, and utensils to the space.</p> <p>In each property's pantry, storage spaces are available for members to store these items. TWC also provides other reusable plates, cups, and utensils for use.</p> <p>Other than that, instead of giving out plastic bags for their Retail Corner at the Main Campus, they encourage their members, and the public to use TWC's very own tote bags.</p>
Timberland®	Timberland® believes that a greener future is a better future. This comes to life through a decades-long commitment to make products responsibly. To encourage customers to reduce the reliance on single-use paper bags, Timberland is rewarding customers with \$1 off for those who bring their own shopping bags.
Toys“R”Us	In support of the National Sustainability Movement, Toys“R”Us Singapore has implemented changes in the sales floor to encourage customers to

	<p>use reusable Eco Bags instead of plastic bags. To drive the initiative, plastic bags are charged at \$0.10 per transaction, while their Star Card members are entitled to a dollar saving on the Eco Bag with any purchase. Part of the proceeds collected from the bag charge will go to WWF-Singapore.</p>
treatsure	<p>treatsure is an app targeted at everyday consumers that aims to reduce food waste and promote food sustainability. Users can order surplus and sustainable grocery products on merchants' pages using the app and enjoy attractive food prices at participating restaurants.</p> <p>treatsure is offering \$0.50 off your meal with treatsure's reusable box at over 10 hotels and restaurant partner locations. Consumers who bring their own bag to self-pickup surplus groceries from their 7 Tanjong Pagar Plaza concept store will also stand a chance to receive prizes by participating in their lucky draw.</p>
Unpackt	<p>UnPackt, as a zero-waste grocery and lifestyle store, encourages customers to bring their own containers to refill their grocery and household items in store. It also conducts talks and workshops for corporates and school which encompass zero-waste living and sustainable practices.</p> <p>UnPackt will be offering 10% off all Pockeat products as well as 10% off food items for consumers who bring their own clean reusable containers from 18 February to 31 March 2023 to encourage the bring-your-own culture.</p>
UOB	<p>UOB's corporate merchandise comprises items made of sustainable materials, with zero single-use plastics. In 2022, through its Lunar New Year Recycling Programme, 1.34 tonnes of used red packets were collected from customers and recycled. To bridge the digital divide and to reduce e-waste, it collected and refurbished more than 1,200 used laptops from across the region this year to donate to disadvantaged children.</p> <p>There are also ongoing green deals for UOB EVOL card members such as 10% off and a free cutlery set at Eco-Lyfe which sells items such as collapsible silicone lunch box/cups.</p>
UOL Malls	<p>UOL Malls ran a sustainability campaign and the 'Art of Sustainability' roving exhibition at Velocity@Novena Square, KINEX and United Square from 1 August to 11 September 2022.</p> <p>The campaign was an opportunity to encourage mall tenants to reduce plastic waste and they can participate by supporting this cause and being the mall's Green Retailers. Shoppers were given additional perks when they made purchases at these retailers. On top of that, with a minimum spend, shoppers were also able to redeem for upcycling workshop passes and reusable eco shopping bags.</p> <p>The 'Art of Sustainability' exhibition featured an upcycled fashion display from LASALLE College of the Arts, thematic art displays using recycled materials designed by students from Tree Art and educational tips on sustainable lifestyle. This aimed at educating the mall's shoppers on the many possibilities of upcycling and recycling.</p>

VICOM	<p>VICOM is a sustainability-conscious organisation that supports the 'Say YES to Waste Less' campaign. Beyond existing measures to create awareness and encourage staff and stakeholders through digital means and posters, VICOM has not only reduced paper waste by investing in digitalization to reduce the issuance of test reports in hardcopies but also deployed paper recycling machines as part of the 3Rs. By working closer with the waste vendors, VICOM has also improved the tracking of general waste and publishes its monthly waste tonnage via a dashboard for its employees' reference.</p>
Watsons	<p>Watsons, the flagship health & beauty brand of A.S. Watson, is committed to 'Look Good. Do Good. Feel Great.' with its customers and towards sustainability efforts. The 'Bring Your Own Bag Everyday' initiative introduced by Watsons Singapore encourages consumers to reduce use of plastic bags, where single-use bags will be made chargeable at 10 cents per transaction across all outlets islandwide. 100% of the proceeds from the plastic bag charge go towards WWF's conservation efforts. Affordable reusable bags are available for sale in-store to those who need it as well.</p> <p>A.S. Watson Group is a signatory of the New Plastic Economy Global Commitment and pledges to reduce the overall impact of its own brand packaging by actions such as eliminating unnecessary packaging by 2030. Beside its efforts to reduce waste, A.S Watson Group also promotes sustainable production and design where they target to use a minimum of 20% recycled plastic content in plastic packaging by 2025, if supply permits it.</p>
WhyQ	<p>As food deliveries become a pivotal part of daily meal options, WhyQ has dedicated efforts into reducing extensive plastic usage by encouraging its users to opt out of disposable cutlery for their orders since September 2020.</p> <p>To further enhance its Zero Waste efforts, WhyQ is collaborating with DBS to offer users 15 per cent off for their late lunches/dinners, delivered during the final hour lunch/dinner delivery timeslot on the WhyQ platform, at over 2.5K hawker stalls. This reduces the wastage of food ingredients that might otherwise be disposed if left unsold.</p>
Wing Tai Asia	<p>Wing Tai Asia champions several sustainable initiatives to encourage shoppers to reduce fashion and packaging waste. Through its Repurpose Fashion initiative launched in 2019, shoppers can drop off their pre-loved clothes at Wing Tai retail stores for repurposing. The Group donates \$0.10 to the World Wide Fund for Nature (WWF) for every kg of apparel collected. In 2022, over 9,500 kg of clothing was collected through the Repurpose Fashion initiative. To encourage customers to bring their own reusable bags, its stores continue to charge 10 cents for each single-use shopping bag.</p>
Wisma Atria	<p>Wisma Atria is joining Singapore's zero-waste efforts by encouraging shoppers to use recyclable bags for their purchases instead of disposable bags.</p> <p>From 5 January – 5 February 2023, Wisma Atria distributed Limited Edition Recyclable Tote Bags (designed in collaboration with the Visual Merchandising students from the Institute of Technical Education College</p>

	Central, School of Design & Media) through the mall's Chinese New Year 2023 campaign, redeemable with a minimum spending of \$88.
Woods in the Books	<p>Since Earth Day 2019, Woods in the Books implemented a \$1 charge for new paper bags. They accept used paper bags in clean and good condition at their brick-and-mortar stores – Woods in the Books and Books Ahoy! – and offer them to customers as an alternative to new paper bags.</p> <p>As a children's bookstore, the store wants to empower their young readers to take charge of their eco-friendly practices on a day-to-day level. They do so by actively sharing ideas and resources through their Little EcoHero Project campaign. More information is available at: https://www.woodsinthebooks.sg/pages/little-ecohero.</p>
WWF-Singapore (World Wide Fund for Nature Singapore)	<p>WWF-Singapore's Plastic ACTION (WWF-PACT) is a business initiative that aims to reduce waste and move towards a circular economy.</p> <p>The programme empowers companies to adapt their business models and processes to be more resource efficient. By providing businesses with guidance and best practices, WWF-PACT enables them to make science-based decisions for responsible production and consumption. This will lower their environmental footprint and address the growing consumer demand for sustainability. Annually, companies who join WWF-PACT collectively avoid more than 80 million pieces of plastic items and packaging.</p>
Your Sustainable Store	Your Sustainable Store is a Singapore-based online store created to make a wide range of curated, stylish, and affordable sustainable products easily available. It hopes that by offering practical yet stylish alternatives, it can inspire more to lead an environmentally aware lifestyle. Where possible, products are sourced close to home to minimise carbon emissions, and from small enterprises to enable more people to thrive economically. Orders will likely be packed in upcycled packaging so that no new resources are utilised in getting purchases shipped to customers.
ZALORA	<p>As part of Singapore's zero-waste efforts, ZALORA has partnered with NEA and a local, non-profit organization, Stridy, to engage and educate customers on the importance of proper waste management and the protection of the environment.</p> <p>ZALORA also embarks on neighbourhood clean-ups to collect and sort recyclables, which may include food-related waste, such as packaging and plastic utensils, to reduce the amount of waste sent to our landfills. ZALORA aims to drive awareness, action, and advocacy amongst participants on the importance of proper waste management and the SYTWL movement.</p> <p>ZALORA will also be promoting sustainable shopping awareness campaigns in the coming months to encourage customers to make more mindful purchases.</p>

Zero Waste SG	<p>Zero Waste SG (ZWSG) is an NGO charity leading the drive towards zero waste in Singapore through education and advocacy. In 2017, ZWSG started the Bring Your Own (BYO) movement (www.byosingapore.com) with retailers who offered incentives to customers to bring their own reusable containers, bottles, and bags. The movement has expanded to feature retailers, businesses and organisations which support the BYOB culture among its customers and staff, by encouraging them to bring their own reusables or refuse single-use disposables.</p> <p>ZWSG also launched the BYO Bag (BYOB) and BYO Container (BYOC) campaigns, starting from 2019, under its BYO movement. From February to April 2023, ZWSG will be running the next iteration of BYOB, comprising a series of supermarket roadshows, to prepare shoppers for the upcoming mandatory disposable bag charge and encourage the use of reusable grocery bags. Follow ZWSG's social media channels @byosingapore @zerowastesingapore for more updates.</p>
