MEDIA RELEASE

ANNEX A

Environmental Services Productivity Solutions Grant

- a) The environmental services industry plays a vital role in maintaining Singapore's cleanliness by providing essential services to keep Singapore clean and liveable.
- b) The Productivity Solutions Grant is a key initiative under the Environmental Services Industry Transformation Map. Eligible companies can receive up to 50% in funding support with a cap of \$200,000 per company. The grant application period is open till 31 March 2027.
- c) Companies can use the grant to adopt equipment technologies and digital solutions such as floor scrubbers, sweepers, termite detectors, combi jetting & vacuum drain cleaning trucks. These solutions will streamline operations, boost productivity, as well as develop a skilled and resilient workforce.
- d) To date, the grant has supported over 600 companies in their transformation journey and approved close to 2,000 submissions. LS 2 Services Pte Ltd is an example that had successfully utilised the PSG to adopt ride-on floor scrubbers to clean large floor areas at commercial premises like shopping malls.
