The students and faculty of **At-Sunrice GlobalChef Academy** put together a video showing the academy's support for Hawker Culture. At the academy, students go out to hawker centres to learn about the trade, the cooking techniques, and the variety of dishes. It also teaches the cooking of hawker dishes to both amateurs as well as professionals. Many of its students and alumni have chosen to join their parents and grandparents in operating their family-run hawker stalls.
