

GUIDELINES FOR POLLUTION CONTROL STUDY
[AS AT JUN 2022]

1. **SCOPE**

1.1 The guidelines serve to provide a general reference for trained personnel to conduct pollution control study. Under Section 36 of the Environmental Protection and Management Act (EPMA) 1999, anyone intending to carry out any activity, which could cause substantial pollution of the environment or increase the level of such pollution, may be required to conduct a Pollution Control Study (PCS).

1.2 The PCS shall:

- (a) Identify the sources of emission of air pollutants, discharge of trade effluent, generation of wastes and emission of noise.
- (b) Quantify and evaluate the impacts of such pollutive emissions.
- (c) Recommend the measures to be incorporated in the design and operation of the plant to reduce the pollutive emissions to acceptable levels that would not pose nuisance or harm to the people and the environment.

2. **PCS REPORT**

2.1 The PCS Report shall include the following parts:

(a) **Introduction**

- i Purpose of study.
- ii Description of the approved/proposed industrial activities of the facility and site plan showing the layout of the process units and storage areas.
- iii Description of the processes and the main pollution problems expected, including process flow diagrams.

(b) **Air Pollution Control**

- i Sources of air pollution and sources of odour.
- ii Quality, rates and quantities of air emissions.

- iii Assessment of the impacts of the air emissions, including odorous emissions using dispersion modeling or other acceptable methods.
- iv Measures to control air pollution and ensure compliance with emission standards and requirements in the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013), the EPMA 1999 and its Regulations.
- v Measures to control and prevent odour nuisance.
- vi Monitoring programme - Air impurities monitored, type of monitoring equipment/test carried out, frequency of monitoring.

(c) **Water Pollution Control**

- i Sources of trade effluent.
- ii Quality, rates and quantities of all wastewater streams and final trade effluent discharges.
- iii Measures to treat all trade effluent and ensure compliance with emission standards and requirements in the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013), the EPMA 1999, the Sewerage and Drainage Act (SDA) 1999 and their Regulations.
- iv For premises storing large quantities of oils and chemicals, measures for containment of spills, leakages and fire-fighting water.
- v Monitoring programme - Parameters monitored, type of monitoring equipment/test carried out, frequency of monitoring.

(d) **Noise Pollution Control**

- i Sources of noise pollution.
- ii Estimates of noise levels emitted.
- iii Impacts of the noise emissions i.e. the noise levels at the receptors surrounding the plant especially residential housing.
- iv Measures to control noise pollution and ensure compliance with noise emission standards and requirements in the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013), the EPMA 1999 and its Regulations.

- v Monitoring programme - Type of monitoring equipment/test carried out, frequency of monitoring.

(e) **Management of Hazardous Chemicals**

- i Inventory and storage of hazardous chemicals.
- ii Evaluation of the acute and chronic (e.g. carcinogen, endocrine disruptor, etc.) hazardous impacts of each hazardous chemical and/or byproducts to the environment and public health.
- iii Measures for safe storage and handling of hazardous substances to ensure compliance with requirements in the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013), EPMA 1999 and its Regulations and to safeguard the environment and public health.
- iv Policy and procedure to ensure all necessary measures to prevent accidents involving hazardous chemicals would be adopted.
- v Monitoring programme - Type of monitoring equipment to detect any leakage of hazardous substances, frequency of checks.

(f) **Toxic Wastes Management**

- i Inventory and storage of toxic industrial wastes, including waste oil, solvent and other solid wastes.
- ii Measures for safe storage and handling of toxic industrial wastes to ensure compliance with requirements in the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013), the EPMA 1999 and its Regulations.
- iii System of checks on the safe storage and handling of toxic industrial wastes.

(g) **Recycling and Resources Conservation**

- i Study the feasibility and recommend measures to reduce, reuse and recycle wastes generated from the plant.
- ii Study the feasibility and recommend measures to conserve energy and water use in the plant.

(h) **Prevention of Land Contamination**

- i Sources of potential land contamination.
- ii Estimates of impacts from such sources on land contamination.
- iii Measures to prevent land contamination.
- iv Monitoring programme, if appropriate.

(i) **Conclusion**

- i Whether the proposed measures in parts (b) to (h) are adequate to ensure compliance with statutory requirements and the Singapore Standard on Code of Practice for Pollution Control (i.e. SS593:2013).
- ii Whether the plant/proposed plant and its operations would pose any significant pollution impact on the environment and on developments in its vicinity, including odour, noise and dust nuisances.

(j) **Annexes**

- i Safety Data Sheet (SDS) of each chemical.
- ii All supporting calculations and documentations including detailed results of dispersion/computer modeling/charts.

2.2 For clarification on these guidelines, please contact our relevant officers listed on our website available at: www.nea.gov.sg/our-services/development-control/consultation.

LIST OF PCS CONSULTANTS

<p>Aecom Singapore Pte Ltd 300 Beach Road #03-00 The Concourse Singapore 199555 Tel: 6299 2466 Fax: 6299 0297 Contact: Ms Jagriti Dawra DID: 6654 1423 Email: Jagriti.dawra@aecom.com</p>	<p>Amec Foster Wheeler Asia Pacific Pte Ltd 991E Alexandra Road, #01-25 Singapore 119973 Tel: 6501 6888 Fax: 6273 1015 Contact: Mr Ketan Shah, Commercial Director DID: 6501 6858 Email: shah.ketan@woodplc.com</p>
<p>Arcadis Consultancy Pte Ltd 1 Magazine Road #05-01 Central Mall Singapore 059567 Tel: 6239 8525 Fax: 6224 7089 Contact: Mr Benedict Chow DID: 6239 8589 Email: benedict.chow@arcadis.com Contact: Ms Merryana Thong DID: 6239 8231 Email: merryana.thong@arcadis.com</p>	<p>Camp Dresser & McKee International (S) Pte Ltd 1 Maritime Square, #09-50 World Trade Centre Singapore 099253 Tel: 6273 3311 Fax: 6278 0297</p>
<p>CH2MHILL Singapore Consulting Pte Ltd 150 Beach Road Gateway West 34th Floor Singapore 189720 Contact: Mr Joan Julia Tel: 6307 6623 Email: Joan.Julia@ch2m.com Contact: Ms Wang Xiaohui Tel: 6349 1970 Email: Xiaohui.Wang@ch2m.com</p>	<p>DHI Water & Environment (S) Pte Ltd 2 Venture Drive, #18-18 Vision Exchange Singapore 608526 Tel: 6777 6330 Fax: 6777 3537 Contact: Mr George Foulsham (Head of Department, Environment) DID: 6777 6330 Email: gjf@dhigroup.com</p>
<p>Enviro Pro Green Innovation (S) Pte Ltd (EPGI) / Environmental Professionals Pte Ltd (Enviro Pro) 18, Boon Lay Way, #10-114 Trade Hub 21 Singapore 609966 Tel: 6465 1187 Fax: 6465 1186 Contact: Mr Carsten Huttche Email: carsten.huttche@gmail.com</p>	<p>Environmental Resources Management (S) Pte Ltd (ERM) 120 Robinson Road #10-01 Singapore 068913 Tel: 6324 9636 Fax: 6226 1636 Contact: Mr Rohan Rajadurai DID: 6324 9632 Email: rohan.rajadurai@erm.com</p>

<p>EnviroSolutions & Consulting Pte Ltd 133 Cecil Street #08-01A/01B Keck Seng Tower S (069535) Tel: 6243 1174 Contact: Mr Andrew Young Mobile: 9838 9429 Email: andrew@envirosc.com and Email: enquiries@envirosc.com</p>	<p>Golder Associates Singapore Pte Ltd 18 Ah Hood Road #10-51 Hiap Hoe Building, Zhong Shan Park Singapore 329983 Tel: 6546 6318 Fax: 6546 6319 Contact: Mr Rob Kirk Mobile: 9027 6964 Email: RKirk@golder.com.sg</p>
